

DELHI PUBLIC SCHOOL, NERUL, NAVI MUMBAI
SESSION 2024-2025
SCIENCE PRACTICE ASSIGNMENT – 4
CLASS - III

Name:

Class/sec:

Roll No:

Q1. Fill in the blanks.

- a. The _____ layers of soil provide minerals and ores for our use.
- b. _____ makes the soil fertile.

Q2. Write true or false.

- a. Clayey soil cannot hold water.
- b. Different crops grow in different types of soil.

Q3. Read the passage carefully and answer the following.

Plants or crops grow in soil and hence, we can say that soil produces food. Crops absorb minerals and water from the soil. To make the soil fertile, manure and fertilisers are added. Fertile soil helps the plants to grow better.

- a. Name two things that crops absorb from soil.
- b. How can we increase the fertility of soil?

Q4. Name two minerals present in the soil.

Q5. Which plant grows well in sandy soil?

Q6. Give reason: Loamy soil is best for the growth of plants.

Q7. Write an experiment to show soil contains water.
