- **95% and above: 64 ( 24.81%) students**
- **Distinction and above: 251 (97.29%) students**
- ***Overall Class Average Aggregate: 89.97%***

The Aggregate Average of a class is a significant key to measure the academic excellence of the students and teachers, and the school in accordance to the guidelines of CBSE as well as the DPS Society.

The Aggregate Average is calculated by totalling the marks of each student in 5 subjects for all the 258 students. The grand total of marks is then divided by 258. The result obtained from this division is further divided by 5.

In DPS Navi Mumbai, last year the Average Aggregate was 89.2% while this year it has risen to 89.97% (90%).
